Work Experience & Projects

Tailwind Traders Multi-Country Sales & Profit Dashboard May 2026

Technology Stack: Power BI | DAX | Python

Key Deliverables:

- Data Modelling:** Architected a 5-table relational data model comprising Sales, Purchases, Countries, Exchange Rates, and a custom Calendar table, integrating live exchange rates across **five currencies**.
- Sales Performance Analytics:** Evaluated sales activity across **5 countries** and **14 product categories**, identifying the UAE as the highest-performing market, contributing **63.49% of median sales** while maintaining consistent profit margins of approximately **20%** across all regions.
- Executive Dashboarding:** Assembled an executive-level Power BI dashboard featuring country-level slicers and interactive performance visualisations, enabling real-time tracking of **\$866.97K net revenue** and **92.27% YTD profit** to support strategic business decision-making.
- Business Intelligence Development:** Engineered a DAX-powered Sales in USD model alongside advanced measures including Yearly Sales, Quarterly Sales, YTD Profit Margin, and Median Sales, enabling standardised multi-currency financial reporting.

Bellabeat Fitness Case Study March 2026

Technology Stack: Tableau | SQL | Microsoft Excel

Key Deliverables:

- Data Analytics:** Examined **940,000+ Fitbit activity records** using SQL and Excel to uncover insights into user engagement, physical activity, calorie expenditure, and sleep behaviour.
- Data Preparation & Statistical Analysis:** Refined raw datasets through comprehensive data cleaning, exploratory data analysis (EDA), and statistical techniques, revealing that highly active users burned **30–40% more calories**, while **45%** exhibited inconsistent activity levels and irregular sleep patterns.
- Business Intelligence:** Crafted interactive dashboards that transformed complex datasets into intuitive visual stories, supporting targeted wellness initiatives & contributing to an estimated **10–20% increase in user engagement**.
- Strategic Insights:** Formulated executive-ready recommendations by translating analytical findings into actionable business strategies, enabling data-driven decision-making for future health and wellness campaigns.

Cyclistic Bike Share Case Study February 2026 – March 2026

Technology Stack: Power BI | R

Key Deliverables:

- Data Analytics:** Processed and **evaluated 5,000,000+ bike-share transactions** using R and Power BI, uncovering customer behaviour, ride usage trends, and membership patterns across casual and annual riders.
- Customer Segmentation:** Isolated behavioural trends through advanced segmentation analysis, revealing that casual riders averaged **20–25% longer trips** and **60%** of journeys occurred on weekends, exposing high-potential membership conversion opportunities.

Summary

- Microsoft Certified **Power BI Data Analyst (PL-300)** with a strong foundation in data analytics, business intelligence, and data-driven decision-making.
- Hands-on experience delivering end-to-end analytical projects involving datasets exceeding **5 million records**, transforming raw data into executive-ready dashboards and actionable business insights using **SQL, Python, R, Power BI, Tableau, and DAX**.
- Demonstrated success in uncovering customer behaviour patterns, automating reporting workflows, designing scalable data models, and enabling strategic business decisions through interactive visualisations.
- Passionate about leveraging analytics, cloud technologies, and business intelligence solutions to improve operational performance and support organisational growth.

Education

Bachelor of Technology (B.Tech.) – Computer Science & Engineering

Allenhouse Institute of Technology, Uttar Pradesh, India
2021 – 2025

Certifications

Microsoft Certified: Power BI Data Analyst Associate (PL-300)

Google Data Analytics Professional Certificate

PWskills Data Analytics Certificate

Technical Skills

Programming: SQL, Python (Pandas, NumPy), R

Business Intelligence: Microsoft Power BI, Tableau

Databases: PostgreSQL, MySQL

Cloud Technologies: Amazon S3, AWS Glue, Amazon RDS, Power BI Service

Productivity: Microsoft Excel

- **Business Intelligence:** Produced Power BI dashboards, translating complex mobility data into actionable business insights, supporting marketing initiatives leading to an estimated **10–15%** increase in membership revenue.
- **Strategic Decision Support:** Generated data-backed recommendations that strengthened business planning and cross-functional decision-making.

ADDITIONAL INFORMATION

- **Languages:** English, **Arabic**, Hindi
- **Visa Status:** Valid UAE Residence Visa
- **Portfolio:** **Syed Taha Ahmad**
